

AMERICAN SOCIETY FOR RADIATION ONCOLOGY

ASTRO has launched a brand new, more intuitive experience for the [ASTRO Virtual Meetings](https://astro-ccast.echo360.org/) (<https://astro-ccast.echo360.org/>)! Please continue to use your ASTRO credentials to [Log In](#), and experience a streamlined way to access content from either the new "My Library" Dashboard or [Meetings](#) pages. To access your Dashboard, click on the "My Library" dropdown and "My Dashboard". Your Dashboard provides a view of your meeting products, viewing history, created playlists and presentations with bookmarks and notes. This allows you to quickly select what to view.

When viewing presentation videos, new features include:

- Bookmark and take notes timed to the exact slide
- Speed up or slow down the playback speed
- Download PDFs of the presenter slides or the audio tracks
- Create favorites and playlists to watch the content again
- Rate presentations

Below is a screenshot of the new My Library Dashboard after login.

Visit the [FAQs](#) for an in-depth view of the new player features.

If you have questions and need help, please [Contact Us](#) on the Virtual Meetings website or email ASTRO-customersupport@echo360.com.
